
An extra little Prayer Point...

9th November 2015

Hi - I just wanted to extend this prayer point out to the wider community, I know for a fact this prayer letter goes to several states in Australia and across to the USA so I ask that you would all pray for my sweet little friend Brianna (pictured). Brianna is Fred and Venna's youngest daughter and is only six months old. On Saturday morning, instead of attending the school closing day Brianna and her sister Bernice 2.5 years went to the hospital with their Mum, Venna. Bernice was diagnosed with tonsillitis for the second time in just as many weeks and little Brianna has stayed in the hospital as she became dehydrated with Malaria. It's 7:30pm Sunday night and she is staying in over night again tonight. I spent the day with the other two girls today watching the movie Annie and Parent Trap and Bernice was clearly unwell because she didn't talk - usually we have to ask her to stop talking! Please pray too for their Mum and Dad, Fred and Venna who work unceasingly to run a school and be involved in their church and local community and just seem so tired and exhausted after finishing school on Saturday for the year.
